Submarine Docks at New London, Bringing a Valuable Cargo And Dispatches

(By Associated Press.)

NEW LONDON, Conn., Nov. 1.—The German submersible merchantman Deutschland, arriving this morning from Bremen after what was said to have been an uneventful voyage of 21 days, has a cargo of 750 tons of dyestuffs, medicines and chemicals. Neither Captain Koenig nor Captain Hinrich of the Eastern Forwarding company was communicative regarding the details of the trip across the Atlantic. They promised a statement later. Crowds thronged the dock in the forenoon in hope of getting a glimpse of the craft, but were disappointed. The submarine is well berthed in her pocket that not even her masts show. Policemen and detectives keep the crowds moving.

The first intimation of the approach of the Deutschland came at midnight, when it was picked up by the searchlight of the government dredger Atlantic, working off an eastern point. The dredger wireless the tug T. A. Scott, Jr., which put out, carrying officials. Captain Koenig shouted a welcome and invited the party to enter the sub-

marine. All but two of the crew of the Deutschland were aboard on the first trip.

The return cargo for the Deutschland, consisting mainly of crude rubber and surgical instruments, valued at exceeding half a million dollars, has been on the pier for several weeks.

A communication for Von Bernstorff was brought by the Deutschland. The letter was forwarded to Washington by a special messenger. Within a few days it is expected that the Deutschland will officially enter its cargo, which is said to be valued at two million dollars. None aboard the submarine asked regarding the Bremen.

(By Associated Press.)

WASHINGTON, Nov. 1.—Captain Paul Koenig of the Deutschland, officially notified Count von Bernstorff of his arrival at New London, saying he had brought a packet of dispatches from Berlin. It is believed that the craft starts on its return voyage next week. Her arrival has revived the probability of a regular submarine mail service between the United States and Germany.

Trabue, according to a statement after the shooting, said he had gone to Stokes' office to ask him to retract a statement and that when he presented a written retraction for Stokes to sign, Stokes attacked him. He then shot in self defense, he said. There were no witnesses.

BRITISH GOLD STILL COMING TO AMERICA

LATEST LOAN TO ENGLAND IS NOT STEMMING THE YELLOW TIDE

(By Associated Press.)

NEW YORK, Nov. 1.—Imports of British gold continue to be heavy in volume despite the recent statement by leading bankers that the latest loan to Great Britain would have a tendency to check the movement. Gold bars and coin valued at \$8,500,000 were received today by the Morgan company from Canada, of which \$6,500,000 was deposited in the clearing house, the rest going to the assay office. It is understood that the federal reserve bank receives a large share of the imported gold as long as the movement lasts.

Hope was expressed that the emperor's reign would be "one of further progress and prosperity." Although the emperor was born on August 31, his birthday is observed, according to custom, on October 31, because of the excessive heat which prevails in Japan in August.

MANHATTANITES HAD GREAT TIME OF THEIR LIVES

The Manhattan National Rifle team, captained by Percival Nash, returned this morning from Jacksonville, Florida, where they participated in the first national shoot to which civilian clubs were invited. The returning members were Percival Nash, P. O. Harris, R. E. Gillan, J. E. Connor, W. R. Wilcox, K. C. Irvine, Lloyd Wilcox, J. Juhl, Clark James, A. F. Manty, Del McFarland and Percy Train.

The club left on the morning of the 7th and arrived at Jacksonville on the morning of the 12th. They went into camp in military style at the Florida state camp, 12 miles from Jacksonville, on the St. John river. It was an ideal camping location, but the weather was chilly, it being the coldest October experienced in Florida in 31 years.

The shoot practically began on the 11th, but the participation by the Nye (Continued on page four)

WAR NEWS AT A GLANCE

There has been little concerted infantry fighting upon the European battlefields. Between Transylvania and Rumania, the opposing armies continue the fray, but with little change. North and east of Campulung, Rumania, the fighting goes on, and Bucharest claims the capture of Mount Rosca at Bistocsa and the repulse of attacks in the Dragoslavl sector. Berlin claims the repulse of Rumanian attacks north of Campulung and Bucharest says the advance in the Jiu valley is making progress.

The Rumanians have gained a victory near Szurdok pass, a wireless message from Bucharest reports. Rumanians drove the Austro-Germans from the frontier, capturing prisoners and artillery.

"STRICT ACCOUNTABILITY" MEANINGLESS

(By Associated Press.)

NORTH ADAMS, Mass., Nov. 1.—The alleged weakening postscript to the Lusitania note to Germany regarding "strict accountability" was again referred to by Senator Lodge at a political meeting here last night. "The president of the United States has denied that there was a postscript to the Lusitania note, and we are all bound, of course, to accept the president's denial just as he makes it," said Senator Lodge.

"I need hardly say," he added, "that I would not willingly bring an unfounded charge against anyone, high or low, or be misled into doing so I should be quick to retract it. The president makes one mistake. The statement which he characterizes as untrue, that there was such a postscript, was not mine, but was made by Mr. Breckenridge, a former assistant secretary of war, according to the

The supreme court late yesterday afternoon issued a writ of mandamus instructing the county clerk of Churchill county to exclude the name of Hattie Ferguson from the official ballot as the Democratic nominee for county clerk and treasurer. The Democratic convention failed to nominate a candidate for that office and the county central committee presented the name of Miss Ferguson to the county clerk to fill what they thought was a vacancy. The supreme court decided otherwise and her name will not now go on the ballot.

The foregoing is taken from the Carson Appeal. The opinion seemingly makes the candidacy of Earl Paxson, named on the Republican ticket for county clerk, a thankless one, for he was also named by the county central committee after the name of Robert G. Pohl was taken off.

NEW LIGHT ON BRITISH CHANNEL RAID

(By Associated Press.)

LONDON, Nov. 1.—The loss of six drift net boats, in addition to the sinking of the transport Queen and the torpedo boat destroyer Flirt in the recent raid by German submarines in the English channel, was admitted by A. J. Balfour, first lord of the admiralty, in the house of commons yesterday. In answering questions concerning the raid on the channel transport service, the first lord said that while the raiders had all the advantages in choosing the moment for attack, in this case it failed.

The only cross channel steamer to be attacked, Mr. Balfour said, was the empty passenger vessel Queen, and she would have been saved, he added, had the captain realized that she would float six hours after the attack. The torpedo boat destroyer Flirt, he said, was destroyed in the dark by German destroyers which fired on her at close range and sank her. The destroyer Nubian, torpedoed while attacking the German squadron, could have brought to harbor but for the gale. The first lord

believed that the Nubian can be salvaged. He then admitted that six drift net boats had been lost. "There is ground for thinking," Mr. Balfour declared, "that two German torpedo boat destroyers, after being hit during the action, struck mines and were blown up and probably sunk."

The above is the first intimation from British sources that any ships except the Queen, Flirt and Nubian were damaged in the German raid during the night of October 26-27. The British official statement said that two of the German destroyers had been sunk and the remainder driven off. The statement admitted the loss of the Queen, said the Flirt was missing and declared that the Nubian had grounded after being disabled by a torpedo.

The German official statement on the raid declared that at least 11 outpost steamers and two or three torpedo boat destroyers or torpedo boats were sunk or damaged by the German squadron. The statement added that the German ships had returned safely to their base.

GERMAN AMBASSADOR ASKS FOR INFORMATION

(By Associated Press.)

WASHINGTON, Nov. 1.—Secretary Lansing has authorized a formal statement that the progress of the political campaign would not in any way affect the investigation of submarine attacks. There has been no change in the United States government policy. Meanwhile, Von Bernstorff, the German ambassador, sent a wireless dispatch to his government asking that he be furnished immediately, by wireless, with all available details regarding the sinking of the Marina.

Lansing made it plain also that no decisive action would be taken until Germany had opportunity to reply to the inquiry for her version of the attacks on the Marina and Rowanmore. Instructions were sent to the embassy at Berlin, where it is said it would ask for an investigation by Germany, not an explanation. It is not meant to indicate that the United States believes it has proof that Germany violated its pledges.

BULGARIAN VILLAGE TAKEN BY THE BRITISH

(By Associated Press.)

PARIS (official), Nov. 1.—The village of Barakli-Ezuma, in the Struma sector, on the Macedonian front, was captured last night by British troops. They inflicted heavy losses on the Bulgarians, taking 300 prisoners.

MARINA WAS ARMED

(By Associated Press.)

LONDON, Nov. 1.—Additional affidavits from American survivors of the sunken Marina say the vessel had mounted a four and a seven-inch gun astern, but not used, the vessel having no time because it was not warned of the submarine attack. It was too late after the torpedoes hit the vessel.

evidence of two independent witnesses, both gentlemen of high character, responsibility and veracity, and Mr. Breckenridge was in a position to know, if, as he is reported to have said, he had seen the postscript. Bearing in mind the public and hitherto uncontroverted fact that Mr. Bryan had informed the Austro-Hungarian ambassador that the strict accountability note of May 15 meant nothing, which fact was at once cabled by the ambassador to Berlin, it seemed to me that Mr. Breckenridge's statement as testified to by two independents ought properly to be laid before the public.

"The president, it will also be observed, says that the clause proposing arbitration 'was suggested' and that after consideration he rejected it. This suggestion rejected by the

(By Associated Press.)

MARSHFIELD, Nov. 1.—Three are dead and two were injured by a gas explosion occurring 3000 feet below the surface of the Beaver Hill coal mine. Only one body has been recovered. Black damp is impeding rescue work. The explosion occurred on the lower level while the night shift was working. Two of the injured will probably recover.

PRESIDENT WILSON IN A CRITICAL MOOD

(By Associated Press.)

BUFFALO, N. Y., Nov. 1.—President Wilson "registered a solemn protest" against the use of international relationships of the nation for partisan purposes. The men doing this, he said, "I cannot and will not regard as patriots." He declared that questions involving human lives should not be dragged into politics. He said he would not consent to the Democratic party being used for any such purpose. The president criticized the men who, "amidst the most critical relationships, the details of which they do not know, make play with the loss of American citizens, in order that they may create domestic and political advantage."
